

MASTER YOUR ENVIRONMENT WITH PRO-WATCH®

Complete Integration. Complete Protection.

Honeywell

PRO-WATCH[®] INTEGRATED SECURITY SUITE

Enables an enterprise to benefit from the seamless integration of all of its security solutions, giving complete visibility of all the connected systems, in turn mitigating business risks.

It's designed to protect people and property, optimize productivity, and ensure compliance with industry regulations. And it saves time and money by providing actionable intelligence and reducing operational costs.

INTELLIGENT COMMAND

A web-based interface that gives organizations total situational awareness of their security system. The seamless integration of video and access control solutions provides actionable intelligence that facilitates rapid decision making with incidents and associated workflows configured in the system, allowing standard operating procedures to be monitored.

VIDEO MANAGEMENT SYSTEM

Controls multiple sources of video subsystems to collect, manage and present video in a clear and concise manner. It also intelligently determines the capabilities of each subsystem across various sites, allowing video management of digital video devices through a unified configuration and viewer.

Multiple Pro-Watch NVRs can be deployed for system expansion using a distributed architecture and are integrated with the Pro-Watch VMS enterprise video management system with Integrated Security Suite.

Video analytics has been a powerful tool to provide means for improved situational awareness, insights for increasing efficiency and reduce workload on security and management staff in turn increasing returns from existing surveillance infrastructure.

ACCESS RIGHTS MANAGEMENT

The Access Rights Management module streamlines the cardholder access request process. It incorporates intuitive web-based interfaces for both badge holders and administrators. The automation of the approval process also enables system administrators to manage identities easily, while saving time and money and reducing errors.

IDENTITY MANAGEMENT ASSURANCE

The Pro-Watch Identity Management Assurance enables users to resolve the many challenges involved in verifying the identity and backgrounds of the large numbers of employees, visitors and contractors passing through the business's facility. It enables users to give

different access rights based on business need and access levels. It also helps manage and monitor the training needs required for gaining access to these areas.

VISITOR MANAGEMENT

With Lobby Works, visitor registration is quick and simple and can take place at a guard station or an optional self-registration kiosk. It will boost your visitor security; enable the organization to have a complete, centralized record of all visitors; and enhance overall customer service levels.

PRO-WATCH MOBILE APP

This application can help to improve productivity and efficiency, as it enables users to access the Pro-Watch Integrated Security Suite from a mobile iOS or Android operating system.

This means quick and easy access to system information at any time of the day or night. It also enables administrators to manage credentials remotely.
