

Technology Solutions Integrator  
**OF CHOICE**

## **Our certifications,**

### **Professional accreditations & Licenses**

Obtaining certification is a reflection of the will of the company to position quality, professionalism and know-how at the forefront of its priorities. Our quality and service are frequently recognised by many external organisations. Many of these awards and accreditations are made on a national basis.

## CCQ Certification

Commission de la construction du Québec

The construction industry is a major sector in Quebec, generating some \$30 billion in investments every year. The hundreds of thousands of people involved in the industry, and the companies that employ them, must be constantly on the move throughout the province. This economic activity requires the contribution of many individuals and companies, including architects, engineers, suppliers of materials, workers, and contractors. Together, they form the teams that build bridges, houses, schools, factories, and businesses.

The Quebec construction industry has adopted criteria for hiring workers to which construction companies must conform. The fundamental principle is competency, acquired through training and/or on-the-job experience.

To demonstrate their competency and to work in the construction industry falling under the Act Respecting Labour Relations, Vocational Training, and Workforce Management in the Construction Industry (Act R-20), all the iMotion technicians hold a competency certificate.

## RBQ Licence

Régie du bâtiment du Québec

The Régie du bâtiment du Québec (RBQ) has been created in 1992. Its mandate is to ensure the quality of construction work as well as the safety of people in the fields of building, electricity, plumbing, gas, petroleum equipment installations, pressure vessels, elevators, passenger ropeways, amusement park rides and public pools and beaches. The RBQ fulfills its mission by adopting standards with regard to building, safety, financial guarantees and professional qualifications, by issuing licences and permits conferring their holders with the rights of exercising, and by overseeing the application of the standards established through regulations.

iMotion Security holds a license from la Régie du Bâtiment du Québec: Find us on the RBQ licence holders repertory - search for #5596-1577-01

### **Intercommunications, telephone and surveillance**

This subclass authorizes construction work that is not reserved for electricals relating to intercommunications, telephone and surveillance systems, and similar or related construction work.

We are therefore eligible to bid, organize, coordinate, implement and enforce the construction included in categories and sub-categories:

- Intercommunications, telephone and surveillance

## C.S.S.T.

### Commission de la santé et de la sécurité du travail

The Commission de la santé et de la sécurité du travail (CSST) is the organization to which the Government of Québec has entrusted the administration of the occupational health and safety plan. For this purpose, the CSST sees to the application of the following two Acts:

the Act respecting occupational health and safety, the purpose of which is to eliminate at the source dangers to the health, safety and physical well-being of workers;

the Act respecting industrial accidents and occupational diseases, the purpose of which is to compensate for work-related injuries and their consequences for workers, as well as the collection, from employers, of the sums necessary to fund the plan.

iMotion security holds a certificate of compliance from the CSST.

## CCMM

### Chambre de commerce du Montréal métropolitain

iMotion security is a proud member of the Board of Trade of Metropolitan Montreal, who promotes the development of a strong, proud, representative and committed membership. We also provide services designed to meet the needs of our members.

We are the voice of the business community and of the people of Greater Montreal for all aspects of their economic growth and prosperity, as well as serving as a catalyst and unifying body for the driving forces of the Montreal economy.

The Board of Trade is actively engaged in key sectors of economic development. As such, it advocates an action-oriented philosophy based on credibility, proactivity and impact.

The Board of Trade will be responsible for giving Montréal an exceptional impetus. It will be the most relevant organization to its members, always credible and highly influential through its actions and positions.

It will have a strong membership composed of the most dynamic metropolitan leaders. iMotion Security takes great pride and satisfaction in contributing to the success of the metropolis and thus to that of Québec's economy.

## Canasa

### Canadian Security Association

CANASA will be the recognized voice of security in Canada. iMotion security is a proud member of this association.

Established in 1977, the Canadian Security Association (CANASA) is a national not-for-profit organization dedicated to advancing the security industry. They protect and promote the interests of its members and the safety of all Canadians through education, advocacy, and leadership.

The Canasa is a recognized voice of the security industry in Canada and have a growing membership of more than 1300 member organizations in 10 Chapters and Sub-Chapters across the country representing all segments of the industry.

The Canasa support their members through a comprehensive network of services, including:

- high quality security education;
- leading industry trade shows;
- government relations and advocacy work;
- marketing and communications; and
- the latest industry information and news.

## Bureau de la sécurité privée

The National Assembly of Quebec passed the Private Security Act which came fully into force on 22 July.

This new Act represents a major reform of the private security industry and follows a long period of reflection and exchange between the people of the private security industry and the Ministère de la sécurité publique (MSP).

The new Act replaces the Act Respecting Detective or Security Agencies which dated from 1962. It requires that any individual who carries on private security activities in Quebec, must now hold an agent licence. It also requires that any person who operates a business providing one or more private security activity must hold an agency licence of the appropriate class for the activities offered.

The Private Security Act applies to six distinct class of private security activities, which are: security guarding, investigation, locksmith work, electronic security systems, transport of valuables and security consulting.

## ASP Construction

Association sectorielle paritaire pour la santé et la sécurité du travail du secteur de la construction

In the last 30 years, the frequency rate of accidents with injuries in the construction industry has decreased by over 300%. In addition, the number of injuries and serious sequelae following falls have also declined significantly, due among other things, to the wear of the safety harness. More efficient and comfortable, it is now part of everyday life of many workers.

Today the ASP Construction provides training to entrepreneurs and workers that understands that the acquisition of knowledge and skills as well as developing expertise in prevention helps them implement effective measures to eliminate the source of hazards and maintain safe and healthy working conditions on construction sites.

Every technicians at iMotion Security holds a certificate from the ASP Construction.

## Intermec

Identification and automatic data capture and RFID technologies.

iMotion security is proud to be a SILVER partner with Intermec - developer, manufacturer and integrator of the most sophisticated tools for the fully coordinated supply chain. Their core technologies include RFID (radio frequency identification), mobile computing and data collection systems, bar code printers and label media.

The Intermec PartnerNet Program was developed to recognize and harness the power of their worldwide partnerships, with the goal of delivering highly valued solutions for our mutual customers.

Intermec's PartnerNet program leverages the deep industry knowledge, sales and marketing resources to help us achieve greater results. Their comprehensive portfolio of tools, performance-based incentives, industry expertise and consistent, predictable interactions helps strengthen and expand the relationships and successes iMotion has already built, while enabling us to continue to advance new, profitable solutions

# Axis Communication

Leader in Network video surveillance solutions

iMotion security is proud to be recognized as an Axis Solution Gold Partner. Axis is the global market leader in network video, driving the ongoing shift from analog to digital video surveillance. Axis products and solutions focus on security surveillance and remote monitoring, and are based on innovative, open technology platforms.

Axis Communications' Channel Partner Program is designed to help channel partners like iMotion Security, capitalize on Axis' market leadership in the fast-growing network video market. Lead-sharing, early product information and technical/sales training curricula at the Axis Communications' Academy are among the many benefits of this program, designed to give iMotion Security a distinct sales advantage.

## Axis' business concept

Axis' business concept is to offer the market intelligent network-based products and solutions. The company is focused primarily on the rapidly growing market for network video solutions. In addition to this business area, Axis has a leading position as a supplier of print servers. Its products are primarily used in network applications for security systems and remote monitoring. These network products provide maximum customer value through effective surveillance solutions, reduced costs and increased flexibility and performance, for example in the form of scalable systems.

## Axis' product portfolio

Axis specializes in professional network video solutions for surveillance and remote monitoring. Our range of products includes network cameras, video servers, video decoders, video management software, and a full range of accessories.

Since 1996, when Axis launched the world's first network camera for connection to an IP network, the company has been the leader in network video solutions. Axis currently offers a broad range of network cameras and video servers for a large number of applications, the most prominent solutions being in the areas of security and remote surveillance. Today, the portfolio comprises a broad range of video solutions, cameras and servers for installations ranging from entry level to professional level.

# Milestone Systems

The Open Platform Company

iMotion holds a professional certification for the sale, installation and maintenance of all Milestone XProtect products.

Milestone is leading the pack as the world provider of true open platform IP video management software. Milestone XProtect® software is powerful and advanced, yet easy to use, reliable and proven in more than 100,000 installations worldwide.

The open platform allows best-in-class solutions to video enable business: reducing costs, optimizing processes, protecting people and assets and ultimately increasing value in your organization's products and services.

Milestone Systems is an international company that sells video surveillance management software in many countries around the world. Their platform is used to ensure greater safety and security for people, products and assets, to help manage environmental issues, and to optimize business processes.

Their XProtect software is distributed and sold through an authorized partner channel and through the Internet, a traditional and standard business model for software companies.
